ABOUT VERSO

THE PROFESSIONALS CHOICE

FIND OUT WHY VERSO™ IS THE BEST CHOICE

As a key brand within the PGL portfolio, the VERSO™ brand now has market leading products across key electrical markets such as: Wiring Accessories (white moulded & part M), IP66 Weatherproof Accessories, Metal Clad Wiring Accessories and domestic circuit protection.

All VERSO™ products have been designed in the UK with one simple mission at the heart of every product line, to make the installation processes more versatile and easier for the installer, whilst creating a higher standard of safety for the end user. Features like anti-microbial properties as standard on wiring accessories that kill 99% of bacteria. Each switch plate is also modular, meaning the installer can solve even the most complex installs using the range of accompanying modules. The VCP has Type A RCD devices as standard along with factory fitted Surge Protection consumer units to ensure that the users home is properly protected against DC trickle and over voltage.

**FIND OUT MORE AT
WWW.VERSOELECTRICAL.CO.UK**

We regularly update our website with news, product features and our “The Need To Know©” section, where we regularly issue the core part of regulations and product features that support the installer with complying to these.
